

PROTO® SPECIALTY PLIERS

- High corrosion resistant finish with welding spatter resistance.
- Locking mechanism helps leave both hands free when clamping, helping to eliminate squeezing action and general hand fatigue when manipulating. Also helps to save time in repetitive jobs.
- Tip of release lever projects at end of handle for a safe, quick, no-pinch, powerful release especially when tools are firmly locked.
- Spring loaded release lever is out of the way when handling.
- Drop forged jaws and rugged tooth profile for durability and toughness.

PROTO LOCKING CHAIN PLIERS

- Flexible heavy duty heat treated chain which adjusts quickly around any shaped object even in awkward areas.
- Use to remove oil filters or holding odd shapes for welding.
- Replacement chain available (J262RC).

PROTO CHAIN PIPE WITH CUTTER

- 13 Alloy steel cutting wheels to evenly cut difficult to reach thin wall pipes by hand ratcheting.
- Locking mechanism – no squeezing, avoids risk of lateral movement and misaligned cutting.
- Butterfly screw for easy feeding as cutting.
- Cuts through steel, cooper, aluminum and some stainless steels.
- Great for exhaust pipe repair and removal.
- Use in plumbing and heating.
- Replacement chain available (J263RC).

PROTO CHAIN PIPE CUTTER PLUS

- 15 Alloy steel cutting wheels to evenly cut difficult to reach piping up to 1/4" / 6mm wall thickness by hand ratcheting.
- Locking mechanism – no squeezing, avoids risk of lateral movement and misaligned cutting.
- Butterfly screw for easy feeding as cutting.
- Cuts through galvanized steel, some stainless steels, cooper, PVC and aluminum.
- Problem solving and time saving, ideal for plumbing, heating, joinery and general maintenance.
- Replacement chain available (J264RC).

PROTO® SPECIALTY PLIERS

J300XL

J260XL

J261XL

- High corrosion resistant finish with welding spatter resistance.
- Locking mechanism helps leave both hands free when clamping, helping to eliminate squeezing action and general hand fatigue when manipulating. Also helps to save time in repetitive jobs.
- Tip of release lever projects at end of handle for a safe, quick, no-pinch, powerful release especially when tools are firmly locked.
- Spring loaded release lever is out of the way when handling.
- Drop forged jaws and rugged tooth profile for durability and toughness.

PROTO SHEET METAL TOOL (J260XL)

- Wide jaw profile to allow powerful grip on large thin surfaces.
- Clamps, forms, bends and crimps sheet metal.

PROTO PLUG WELD PLIERS (J301XL)

- Copper alloy knurled swivel pad to help prevent burn through when plug welding thin sheet metal. Plug welding is advised in most American Collision Repair Procedure Manuals.
- U-shaped mobile jaw to help provide even pressure around spot to be welded.
- Appropriate for general maintenance working pieces in awkward areas, engines, etc.

PROTO ERGO GRIP PLIERS

- New Generation of Locking Pliers: Pliers and Locking pliers in one.
- Long jaws with straight and curved profiles for multiple applications.
- Cushion grip helps reduce slippage with added comfort.
- 70 Degree Angled design- Allows exertion of up to 50% more force in twisting applications.
- Helps keep wrist straight, reducing strain and general fatigue.
- Allows use in areas of limited space.

PROTO LOCKING WELDING PLIERS

- Firmly holds two sections together. Hands free solution in general welding and body repair work.
- U-shaped jaw profile: Permits the clamping of adjacent joints and perfect visibility when welding.
